Gaza Great Minds

We Will Read Again

Web Developer (Backend)

Gaza Great Minds (GGM) Family consists of a talented team of non-paid volunteers across the world who manage the fundraising, social media, and web presence for the project. Our role is to showcase the work of the dedicated educational teams on the ground and advocate for them to raise financial support and educational resources.

We believe that any family is as strong as its members allow it to be. GGM Family is seeking highly energetic, passionate, and skilled individuals who care about children's education in Gaza under all circumstances. Volunteering with GGM offers a deeply rewarding experience, making a real impact on the present and future of the children of Gaza.

Role Brief

A **Web Developer (Backend)** plays a key role in maintaining and enhancing GGM's online presence. They develop and optimize the Hosting/server-side architecture of GGM's website, ensuring fast performance, security, and seamless integration with databases and third-party services. They work closely with front-end developers, designers, and other team members to create a functional and user-friendly digital platform that supports GGM's mission.

The ideal candidate is proficient in backend programming languages, database management, and API development. They should also be committed to creating and maintaining a digital infrastructure that supports fundraising, storytelling, and community engagement.

Responsibilities:

- Develop, maintain, and improve the backend architecture of GGM's website.
- Ensure website performance, security, and scalability.
- Integrate third-party APIs and payment gateways for donations.
- Troubleshoot, debug and resolve technical issues.
- Collaborate with front-end developers to ensure seamless user experience.
- Implement data backup and security protocols.
- Regularly update and document backend systems.

Ideal Volunteer Would Possess:

- Strong proficiency in backend programming (e.g., Python, Node.js, PHP).
- Knowledge of API development and integration.
- Understanding of web security best practices.
- Strong problem-solving skills and attention to detail.

If you're passionate about making a meaningful impact through technology, we'd love to have you join the GGM Family!
